FOREWORD

From our Sponsor

KT Green Ltd. are delighted to once again be sponsoring the Riponian Stages Rally in 2026. As competitors ourselves, this event is one of our favourites on the calendar with some of the finest stages Yorkshire has to offer. It is always well organised by Ripon Motor Sport Club and we are happy to support them in running this historic event.

Like the rally, we too have a long history, having been a family business for over 70 Years. From our showroom in Otley, West Yorkshire, we are main dealers for Subaru, Isuzu and Arctic Trucks, but also sell a selection of hand picked Sports, Specialist and 4x4 used vehicles. Alongside the sales side of the business we also have a busy workshop, bodyshop and parts department to look after your vehicle.

Whether you are competing, marshalling, organising or spectating, we hope you enjoy a great day out in the forests!

Simon, Sally, Chris and Sue Green.

From the Organisers

Welcome to the Riponian Stages Rally, which again welcomes competitors in the 2026 Fuchs Lubricants Motorsport UK Historic Rally Championship, for which it will be the first round. We are also pleased to announce that the Riponian will be the first round of the 2026 Mini Challenge who will tackle the three morning stages. We trust they will enjoy a late winter/early spring visit to the Yorkshire forests. The event will be run under joint National and Interclub permits, the latter for our regular competitors contesting the usual regional championships together with those contesting the Mini Challenge .

Unfortunately the popular Wass complex is again not available to us in 2026, so we will again be using Boltby, together with the Cropton and Gale Rigg Forest to provide approximately 44 competitive stage miles from double usage of the stages.

Due to other commitments at the Thirsk Rural Business Centre on the Saturday of the event this year's Scrutineering and Documentation will take place courtesy of Econ Engineering in Ripon. There will be no access for Rally Traffic at the Auction Mart until after 15:00 on the 7th February.

Thirsk Rural Business Centre will provide start, service and finish facilities on the Sunday. Aircraft & helicopters are prohibited from the proximity of the Start/Finish and Service Area.

The maximum number of entries for the event is 120 plus 10 reserves, with a minimum of 90 competitors. Entries open at 18:00 on Sunday 14 December 2025, and will be allocated on a first come, first served basis and will be acknowledged via email in order of receipt. To ensure that championship contenders have the opportunity to enter, the organisers have reserved 30 places for BHRC competitors, 20 places to the Mini Challenge and 10 places for each of the Regional Championships until 30th December. This gives championship competitors 16 days to get their entries in.

If by 30th December all the reserved places have not been filled, the organisers will allocate these at their discretion, and then an unseeded entry list will be published

To eliminate confusion between the National and Interclub events when placing entries, these regulations have been divided into three sections:-

Section A—Regulations common to both events.

Section B—Regulations specific to the National British Historic Event

Section C—Regulations Specific to the Interclub event

As part of Ripon Motorsport Club's commitment to Motorsport UK's Sustainable Rally Charter we will be aiming to reduce the carbon footprint of the Riponian Rally, by utilising a carbon mitigation scheme that works within the North Yorkshire area.

We look forward to receiving your entries and seeing you all in February

Trackers must be handed in at the arrival control for the final control, in the event of retirement the tracker should be handed in to rally control in service or at the event finish control. Failure to return the tracker will be treated as failure to hand in damage declarations **(NCR.13.13.14)**

In the case of an accident where urgent medical attention is required, the following applies:

The SOS display on the safety tracking device must be activated as soon as possible.

- When possible, the red "SOS" sign should immediately be displayed to the following cars and to any helicopter attempting to assist.
- As soon as possible, the red triangle must be placed in a conspicuous position on the same side of the road as the car at least 50 metres before the car's position, in order to warn following drivers, even if the car is off the road.
- Any crew which has the red "SOS" sign displayed to them, or which sees a car which has suffered an accident and the OK sign is not shown, shall immediately and without exception stop to render assistance. All following cars shall also stop. The second car at the scene shall proceed to inform the next radio point. Subsequent cars shall leave a clear route for emergency vehicles. All crews stopping under this procedure will be allocated a notational time.

In the case of an accident where immediate medical intervention is not required, or of a car stopping for any other reason on or beside a special stage, whether temporarily or permanently, the following applies:

- The OK display on the safety tracking device must be activated within one minute.
- The green "OK" sign must immediately be displayed to the following cars and to any helicopter attempting to assist. If the crew leaves the vehicle the "OK" sign must be displayed so that it is clearly visible to all the other competitors.
- The red triangle must be placed in a conspicuous position on the same side of the road as the car by a member of the crew at least 50 metres before the car's position, in order to warn following drivers, even if the car is off the road.

Should it not be possible, or for whatever reason, to display the OK/SOS board in any of the above situations, this may be replaced by an evident and clearly understandable sign language shown by the crew outside of the car:

- a) an arm and thumb up to indicate "OK"
- b) crossed arms above the head to indicate "SOS".

Any crew which is able but fails to comply with any of the above rules will be reported to the Clerk of the Course who may apply a penalty.

Full details of the Route and Special Stages will be contained in the Road Book, an electronic copy of this will be available to competitors via Sportivity on the 5th February once a fully completed Competitors Declaration/Entry form has been received. A printed road book will be issued in the competitors rally pack. This document will contain all the necessary information to enable competitors to comply with Motorsport UK **NCR.13.1.9.1**

All mileages are approximate based on the planned route at the time of publication of the regulations. The organisers reserve the right to amend number of stages and/or mileages if deemed necessary at any point.

The organiser's times and mileages will be deemed correct and not subject to protest.

The Road Book for this event will include pre-marked, full colour OS maps of Special Stage routes. These will be produced by the organisers with permission from O.S. and HMSO but may not be to scale.

A detailed map of the complete route will be available in the service documents should service crews need to visit any of the special stages to implement recovery of retired competition vehicles.

14: ROUTE NOTES

Unauthorised pre-event practising or testing over special stages on this event is strictly forbidden (**NCR.13.10.7.42**) Any Competitor or their agent observed on private land without the relevant permission within the area covered by the maps specified in these Supplementary Regulations after their publication will be refused a start or Disqualified from the results as appropriate. Competitors may purchase from either Patterson Agencies or On the Pace Note UK a choice of Descriptive Route Notes (see advertisements in these Supplementary Regulations for details). Only the Route Notes provided for the 2026 event by either of these agencies may be used (**NCR.13.2.4.48**). This does not, however, preclude competitors from making notations thereon to suit their own purposes or to transfer information provided by the organisers onto the notes. In all circumstances, competitors are advised that neither the Organisers nor the Notes Providers accept any liability or responsibility arising from the use of such Route Notes.

It remains the competitor's responsibility to order and pay for their notes direct from the Notes Providers. The event organisers are not involved in this process.

More details will follow, but for any immediate enquiries or to register, please email hello@sustain-fuels.com. They will be in attendance near scrutineering on Saturday and adjacent to Service on Sunday which is visited after 3 stages. The onus is on the competitor to order their fuel from the suppliers. The Event Organisers will not be involved in this process in any way.

Competitors are strongly requested to take advantage of this professional refuelling service and avoid the risk associated with service crews carrying large quantities of fuel to the event.

Competitors not utilising the recommended fuel supplier may refuel in a self-refuelling area, using suitable fuel pumps - **pouring of fuel from containers will not be permitted.**

Competitors are only permitted to use fuel that complies with the definition of 'pump fuel' as defined by **NCR.CH.8.App1.7**. There must be no occupants in the rally car at any time whilst it is being refuelled.

Also, fuel will be available at limited commercial filling stations on the A170 between the Service area and the two eastern stages. Competitors must not refuel their vehicles elsewhere.

This can either be covered by extending an existing motor policy to cover the event, or, by purchasing additional cover provided under the Event Road Section Scheme, as an adjunct to an existing motor policy. If a competitor has an extension to their existing policy, they will be required to sign a declaration that the motor insurance complies with the requirements of the Road Traffic Act. Any responsibility for a fraudulent or misleading declaration about existing cover lies with the competitor.

The names of these officials will be published in an Official Bulletin and posted on the Official Notice Board on Sportity. The Chief Scrutineer will be Judge of Fact in respect of Vehicle Eligibility.

Judges and/or DSOs will be appointed to report on sound levels. Excessive sound will be monitored during the event and will include instantaneous occurrence of noise such as that produced by backfiring or caused by anti-lag systems. The penalty for excessive sound may go as far as disqualification.

Stage Start marshals are empowered to judge if a competitor has made a false start **NCR.13.4.40d]**.

Marshals at Time controls and Stage Arrival controls will be Judges of fact for breaches of **NCR.13.13.3.5**

23: SUPPORT THE MARSHALS

To encourage more people to marshal on the rally, every marshal signed on will be entered in a prize draw. Prizes in the draw will be funded primarily by the sale of "Marshal's Smilies" stickers. This can only be done with the entry form at a cost of £5 per sticker. This can be displayed on the co-driver's side of the car so that every marshal can thank you for your generosity.
